harassment & abuse@work diagnostic

Introducing our harassment & abuse@work diagnostic

A powerful tool designed to confront workplace harassment and abuse head-on.

This **harassment & abuse@work** diagnostic recognises the importance of a collaborative approach in addressing these critical issues.

Harassment is legally defined as any act or contact that is unwelcome and is offensive, humiliating or intimidating to a person. Someone can be harassed by one person or by a group of people. People who harass often do so because they believe the person they are harassing will be too afraid to speak up about the situation. They can often abuse their position of power believing the systems and structures around them will protect them from any negative consequences.

By actively engaging in **harassment & abuse@work** assessment, we can raise awareness about the prevalence of harassment and abuse, foster a culture of support within our workplace, and take proactive steps to prevent and resolve incidents.

harassment & abuse@work diagnostic empowers us to create a safe and respectful environment.

By using **harassment & abuse@work** work we can proactively take steps to prevent and resolve incidents, ultimately creating a safe and respectful environment that values the well being of everyone

One that values the well-being of every individual involved.

Together, let us build a workplace free from
harassment and abuse, where everyone can thrive.
